Invitation

Dear Colleagues and Friends,

On behalf of the Organizing and Scientific committee it is with great pleasure that I invite you to the **5th SSRHR meeting**, to be held on **8-10 October 2021**, at the **Aquila Atlantis Hotel** in Heraklion, Crete.

This year's main topic is "**Recent Advances in Reproduction**" and for the 5th consecutive year, we have been working hard to bring together an exceptional scientific program, presenting all recent developments on diagnosis, best practice and research of Human Reproduction.

Taking into consideration the ongoing effect of the COVID 19 in our lives, it is clear that we need to be creative and flexible; therefore the **5th SSRHR meeting** will be delivered as a hybrid event, with both face-to-face and online components, giving participants a greater flexibility to attend.

I trust that many of you will be able to travel to Heraklion, but for those unable to make it in person, we want to offer you the chance to attend the sessions and interact online, through the meeting's digital platform.

With the hope that we will see each other in good health in October for another successful meeting!
